What to expect from Peggy's Home Care

Peggy's home care is registered with CQC and provides personal care and support for people living in their own homes. We specialise in supporting those living with dementia, older age and frailty.

All support staff at Peggy's are trained to the same standard to allow flexible support for individuals to maintain relationships in whatever part of the service they may be using. For example, Home Care or Day Care.

The Registered Manager and Team Leader's will visit you at home to carry out a face-to-face assessment. This is to allow us to gather information and ensure that the service we offer meets the needs of our clients and their families.

Our calls range from a 30-minute call to support with personal care/medication to longer calls for companionship, social sits and carer breaks. We value the relationships and emotional support people need and look forward to supporting a person and their family, to provide meaningful engagement, to improve quality of life and to enable a person to be the best they can be.

We also offer:

Peggy's Place

An informal relaxed peer support session for families living with dementia, older age and/or frailty to come together and share information. Also find out how Peggy's World may be able to offer support now and the future. Call for more information.
